

HOW TO FLY GAMES WORLD?

Using a Paramotor, a flying device made by a propelling engine and a glider. Pilots perform stunts making extreme maneuvers very close to the ground and glide over water beds, using various techniques to beat opponents.

The rules are easily understood and the event is greatly produced. Fly Games World is a two hour event with loads of adrenaline for viewers who will watch all details of the dispute very closely.

In total, three circuits will take place in the first stage that will last approximately 20 minutes. Among them the most thrilling ones will be the one- to- one race, where pilots will be struggling to win at curbs and improving their time in stopwatches.

The system is based on elimination and the finals happen between two pilots in a race where the winner has to cross the finish line first.

The result is hours of a fabulous spectacle and a magnificent competition, viewers will be stunned by all the magic of the event.

THE ORGANIZERS

The organizers of Fly Games World is made up by highly experienced professional in the sport and great aerial events.

Under Lu Marinis leadership, Fly Promotions and events with over 15 years of experience and great recognition on TV. The board of directors counts upon Spanishmen Ramon Morillas, three times Paramotor World Champion and various records. He is also a specialist in designing competition events. Furthermore we count upon Ramon Lopez Santiago, aerial events shows specialist and FIAs and El Yelmo coordinator since 2006. Other than that many other professionals directly involved in aerial shows and events.

WHO ARE THE COMPETITORS

Fly Games world participants are chosen under very strict evaluation criteria, where experience, history, talent and personality are considered.

The result is a team that gathers the best Paramotor pilots in the world from all over the globe such as Spain, France, Czech republic, Italy, Portugal, England, Portugal, Russia, Canada, Argentina, Poland, and Brazil.

DESIGNED FOR GREAT EXHIBITION

The arena is set with huge pillars, water beds, flags and inflatable obstacles which grant sponsors great exposure of their brand names.

Furthermore, there will be promotions and video displays on screens which will generate incredible view that will certainly guarantee "recall", due to all thrill, adrenaline, creativity and innovation involved in the event.

Such event contains novelty, innovation, and greatness which will certainly attract all kinds of media. There will be several newspaper publications, magazine articles, and TV broadcastings. The result is an amazing, return for sponsors. Furthermore we count on all the spectators that crowd the show to see the competition live.

Santos sediará o Fly Games
World, evento aéreo com paramotor na modalidade Presglie. Esta será a mariación tamotor na modandade Press tyle. Esta será a primeira vez que o evento é realizado no Brasil. As disputas, hoje e amanhã, começam às 10 ho-ras, na Praia do Gonzaga. Haverá 16 pilotos de diver-

ravera lo puntos de diver-sos países, como Espanha, França, Inglaterra, Itália, Ar-gentina e Polônia, além do Brasil, que vai ter quatro cometidores

tista Marcio Aita Júnior. Ele foi campeão brasileiro em 2009. Háainda os pilotos Mau-Garcia, Dhiego Rendeiro

espanhol Nicolas Aubert apa-rece como um dos principais nomes do evento. Uma das

a pouca idade do piloto - ele eventos aéreos da nova ge temija anos. Algo interessante é que o espanhol não vai competir. Ojovem será o piloto quevai fazer a exibição do circuito, com velocidade e habilida com velocidade e habilidade.

Paramotor

- We recommend video equipment with giant screens.
- 2 video cams to record each pilot's routine.
- 14 people to control the circuit and production.
- Vehicle to transport flying equipment to the competition arena and to transport pilots.
- Two lifeboats in case of water rescue.
- A huge tent for mechanical equipment and tools.
- · A safe area to keep equipment.
- A briefing room for teams and pilots with internet access.
- A tent for the competition zone for organizers.
- → 5 floating platforms 5 meters x 5 meters with energy source, in case the event is over water.
- •Paratrike or helicopter with support for Base jump or D-Bag.

- 12 international pilots, that will be provided with plane tickets, housing, food and transportation for their equipment.
- T-shirts for pilots and organizers, with Fly Logo and sponsors logos as well .
- 8.000 to 10.000 euros in prizes, that shall be divided for the first 5 competitors.
- 270 meters x 140 meters for competition arena. The technical team will study the area and will do all the necessary adaptations for the event, paying special attention to the beauty of the landscape, proximity to a large number of population around the area, easy access and structure. We recommend the competition to be held over beach sand or water (ocean, river, lakes).

- Water beds with aprox. 50 meters x 2 meters (swooping).
- Medical team and ambulance in the competition zone.
- Security guards to control public access.
- Press room with internet and electricity.
- Bleachers with grids.
- Professional announcer.
- Compatible sound equipment.
- Flight Permissions demanded in the country where the competition will be held.
