Mission Statement

It is an upmost privilege for Malaysia to host the **2nd Asia-Oceania Paramotor Championship 2015** together with the first International Paramotor Challenge FAI Category 2 and will include in World League Cup known as **1st Kembara International Paramotor Challenge 2015.**

We are proud to invite all pilots for an enjoyable event, dedicated fully to the competing pilots and the Teams.

AOPC and KIPC will be open event for all pilot around the globe. We are aiming to provide a fascinating program, with lots of practice, plenty of free flying and providing unforgettable holiday package as after flying activity. So please bring your family and friends to enjoy the fascinating Malaysia Truly Asia

Capital City Kuala Lumpur

Venue

Why Kuala Terengganu?

Kuala Terengganu is located in the east coast of Peninsular Malaysia. The district's location at the estuary of Terengganu River divided the district into two parts, Kuala Terengganu Utara (North Kuala Terengganu) and Kuala Terengganu Selatan (South Kuala Terengganu)

Getting the sea breeze from north east of South China Sea makes the wind is perfect for paramotoring.

Good and affordable accommodation with flexible catering exclusively for the competitor.

Medical Facilities just around the venue incase we need their service

Good selection of additional activities and tour package ready to serve family and friends at any time.

Weather

MAP: TERENGGANU

As a part of Terengganu, Kuala Terengganu has a tropical rainforest climate under the Köppen climate classification with constant temperature, considerable amount of rain and high humidity.

It is generally fairly hot and humid all year round, averaging from 28 °C to 30 °C in daytime and slightly cooler after dusk.

Nevertheless, the sea breeze from South China Sea has somehow moderating the humidity in offshore areas while the altitude and lush forest trees and plant has cooled the mountain and rural areas.

This make Kuala Terengganu is the perfect place to fly Paramotor
