

**LOCAL REGULATIONS
FOR THE
VIII EUROPEAN MICROLIGHT CHAMPIONSHIPS**

to be held at **Castelo Branco** in **PORTUGAL**

between Saturday **31 July** and Saturday **7 August 2004**

organised by the **Federação Portuguesa de Aeronáutica**
(Portuguese Aeronautical Federation)

ON BEHALF OF THE **FÉDÉRATION AÉRONAUTIQUE INTERNATIONALE**

Organiser Address : **Federação Portuguesa de Aeronáutica**

Av. Cidade Lourenço Marques

praceta B – módulo 2

1800-093 LISBOA

PORTUGAL

Tel. : **+ 351 218.539.899**

Fax : **+ 351 218.539.899**

E-mail : **director@emc2004.net**
admin@emc2004.net

Official Web Site : **www.emc2004.net**

AUTHORITY

These Local Regulations are to be used in conjunction with the General Section and Section 10 of the FAI Sporting Code, which shall take precedence over the Local Regulation wording if there is ambiguity.

CLARIFICATION

Microlight aircraft classes AL1, AL2, WL1 and WL 2 are "Classic classes" or "Clássicos"

Microlight aircraft classes PF1, PL1 and PL2 are "New Classes" or "Paramotores"

CONTENTS

1. Part 1 for All classes

- 1.1. General
- 1.2. Program dates
- 1.3. Officials
- 1.4. Entry
- 1.5. Insurance
- 1.6. Language
- 1.7. Medals and prizes
- 1.8. Championship classes
- 1.9. General competition rules
- 1.10. Flying and safety regulations
- 1.11. Championship tasks
- 1.12. Control of Task flights
- 1.13. GNSS Flight Recorders
- 1.14. Scoring
- 1.15. Disqualification

2. Part 2 for AL1, AL2, WL1 and WL2 (Classic classes)

- 2.1 General remarks
- 2.2 Flight Control
- 2.3 Scoring

3. Part 3 for PF1, PL1 and PL2 (New Classes)

- 3.1 General remarks
- 3.2 Flight Control
- 3.3 Flying the tasks
- 3.4 Scoring

Part 1, applies to all Classes

1.1 GENERAL

The purpose of the championships is to provide good and satisfying contest to determine the champion in each class and to reinforce friendship amongst pilots and nations (S10 Chapter 4, 4.2).

1.2 PROGRAM DATES

Training, aircraft inspection, registration : 26 to 30 / July / 2004
Opening Ceremony : Saturday , 31 / July / 2004
First Competition briefing : 31 / July / 2004
Contest Flying Days : 1 to 6 / August / 2004
Closing Ceremony, Prize-giving : Saturday , 7 / August / 2004

1.3 OFFICIALS

Chief Executive Carlos Trigo

Administration Executive Sofia Trigo

Classic classes

competition Director Carlos Trigo

New classes

competition director *(to be confirmed)*

Classic classes

Chief Marshal Sergio Esteban

New classes

Chief Marshal Janet Haines

Administrative Manager Sandra Trigo

Facilities Manager Manuel Rolo

International Jury : Tomas Backman (Sweden , President)

Jan Bém (Czech Republic)

Tom Gunnarson (U.S.A.)

Stewards : Keith Negal (United Kingdom)

Wolfgang Lintl (Germany)

Jose Luis Esteban (Spain)

1.4 ENTRY

1.4.1 The Championships are open to all Active Member and Associate Member european countries of FAI, who may enter, in classes WL1, WL2, AL1, AL2 and PF1 a maximum of 6 pilots, and in classes PL1 and PL2 a maximum of 4 pilots.

1.4.2 Entries must be made on the official Entry Form (annex to these Local Regulations)

1.4.3 If applications, with fees paid, are not received by 31/May/2004, the entry may be refused.

1.4.4 The Entry Fee is:

400 euros for pilot in each class

400 euros for each co-pilot (navigator)

250 euros for each Team Leader and accompanying persons.

A discount of 35 euros per person will be allowed for all entry fees paid by 30/Apr/2004

A reduced discount of 20 euros per person will be allowed for all entry fees paid by

31 / May / 2004

If a competitor has already his own Flight Recorder and wants to use it on the championship, he will be given, at registration, a money back discount of € 25 on his entry fee.

1.4.5 The entry fee includes:

- Competition operations (setting, controlling and evaluating the tasks)
- All competition materials (official map, copies of task maps and task sheets)
- Use of lent Flight Recorders (only for the first 100 registered competitors with entry fees paid)
- Free use of the airport
- Free entry to all official events
- Camping place for each team with water and electricity
- Preferential prices to eat

1.4.6 The entry fee is to be transferred to the EMC 2004 bank account, details of which will be confirmed on the official website.

1.5 INSURANCE

The following insurances, valid in Portugal, are obligatory :

Third party insurance of minimum € 75.000, including damages on property and persons, involved or not in the championship, for all the time between arrival and departure

Personal accident insurance for all team members, including flying in microlight competitions

Insurance covering own aircraft damages is highly recommended.

Documentary proof of insurance, as specified on the Entry Form, must be presented to the Organisers at Registration. (GS. 3.9.6)

1.6 LANGUAGE

The official language of the Championship is English.

1.7 MEDALS AND PRIZES

FAI medals will be awarded to:

- Pilots placed first, second and third in each class.
- National teams placed first, second and third, to be distributed as one team prize for AL1, AL2, WL1 and WL2 classes, one team prize for PF1 class and one team prize for PL1 and PL2 classes

FAI Diplomas will be awarded for those placed first to tenth.

Other trophies or prizes will be announced on the official website.

1.8 CHAMPIONSHIP CLASSES

The Championships may be held in the following classes (S10 Chapter 1, 1.5):

WL1, WL2, AL1, AL2 , PF1, PL1 and PL2

Each class is a championship in its own right.

1.8.1 CLASS VIABILITY (S10 Chapter 4, 4.3.2)

For the championships to be valid there must be competitors from no less than 4 countries in a class, with entry fees paid.

1.8.2 CHAMPIONSHIP VALIDITY

The title of Champion in any class shall be awarded only if there have been at least 6 separate tasks.

1.9 GENERAL COMPETITION RULES

1.9.1 REGISTRATION

On arrival the team leader and members shall report to the Registration Office to have their documents checked and to receive supplementary regulations and information. The following documents are required:

- Pilot License and qualifications
- Evidence of competitor's nationality
- Valid FAI Sporting License for pilot and navigator
- Aircraft Certificate of Airworthiness or Permit to Fly and minimum speed declaration
- Evidence of conformity to class rules
- Certificates of Insurance
- Receipt for payment of entry fees.

The Registration Office will be open as indicated on the information board.

Registration forms may be inspected by Team Leaders on request prior to the start of competition flying.

1.9.2 PILOT AND NAVIGATOR QUALIFICATIONS

A competing pilot shall be of sufficient standard to meet the demands of an international competition and hold a valid pilot license or equivalent certificate. Both pilot and navigator must hold a FAI Sporting License issued by his own NAC. The navigator must have reached the age of 14 years.

1.9.3 AIRCRAFT AND ASSOCIATED EQUIPMENT

Aircraft and equipment provided by the competitor must be of a performance and standard suitable for the event.

Each aircraft must possess a valid Certificate of Airworthiness or Permit to Fly not excluding competition flying. This document must be issued in or accepted by the country of origin of the aircraft or the country entering it or by Portugal's aeronautical authority (I.N.A.C.).

The aircraft must comply with the FAI definition of a microlight at all times (Section 10, Chapter 1, § 1.3).

The aircraft shall fly throughout the championships as a single structural entity using the same set of components as used on the first day, except that propellers may be changed provided that the weight limit is not exceeded and the Certificate of Airworthiness or Permit to Fly is not invalidated. (S10 Chapter 4, 4.19.4)

All aircraft must be made available during the Registration period for an acceptance check in the configuration in which they will be flown. The organisers have the right to inspect for class conformity and airworthiness and, if necessary, ground any aircraft for safety reasons at any time during the event.

All aircraft must be equipped with a simple method of sealing the fuel tank.

1.9.4 TEAM LEADER RESPONSIBILITIES

The team leader is the liaison between the organisers and his team. He is responsible for the proper conduct of his team members, for ensuring that they do not fly if ill or suffering from any disability which might endanger the safety of others and that they have read and understand the rules.

1.9.5 STATUS OF RULES AND REGULATIONS

Once competition flying on the first day has started no rules or regulations may be changed. Any additional requirements within the rules needed during the event will not be retrospective. Competitors may not be substituted, change to another class nor change their aircraft (S10 Chapter 4, 4.19.4).

1.9.6 REST DAYS

The Director may decide to hold a rest day, either because of bad weather or unforeseen emergency or by any other reason he considers valid. In the case of a rest day, this will be announced and communicated to all competitors.

1.9.7 COMPLAINTS AND PROTESTS

A competitor who is dissatisfied on any matter may, through his Team Leader, make a complaint in writing to the Director. Complaints shall be made and dealt with without delay.

Complaints concerning PROVISIONAL scores must be made in writing and delivered to the Director or its representative within the time limit specified on the provisional score sheet, normally within 12 hours after its publication, except the one regarding the last contest task, in which the time limit for complaints is 4 hours.

A Complaint that could affect a task result must be dealt with and answered in writing before any OFFICIAL score sheet is issued.

If the competitor is dissatisfied with the decision of the Director about his Complaint, the Team Leader may present a Protest in writing, and deliver it to the Director within 12 hours after the publication of the OFFICIAL score sheet, except after the one regarding the last contest task Official score sheet, in which the time limit for protests is 2 hours.

The protest fee, which must be delivered with each protest, is 50 euros.

1.10 FLYING AND SAFETY REGULATIONS

1.10.1 BRIEFING

Briefings will be held for Team Leaders (and/or competitors, if the Director so decides) on each flying day. The time and place for daily briefing meetings will be indicated at the first briefing. Any other briefings, meetings or any postponements to the daily briefings will be prominently displayed.

All briefings will be in English. Task description sheets will be given in writing to Team Leaders, Jury members and Stewards. The sheets will include any specific flying restriction information.

Meteorological information, flight safety requirements and details of any prohibited or restricted flying areas will be displayed in writing on a permanent display board.

Procedures for flight preparation, takeoff, flying the task, landing and scoring together with any penalties will be specified in each task description. (S10 Chapter 4, 4.17.1/3/4)

Flight safety requirements given at briefing carry the status of regulations. (S10 Chapter 4, 4.17.2)

1.10.2 COMPLIANCE WITH THE LAW

Each competitor is required to conform to the laws and to the rules of the air of the country in which the championships are held. (S10 Chapter 4, 4.19.1). The laws and rules in effect in Portugal are published in Portuguese on www.inac.pt/htm/LegislaReordenadaFinal4.asp#_Toc242746 and will be referred to, if possible in English, on the EMC 2004 official website.

1.10.3 PREPARATION FOR FLIGHT

Each aircraft shall be given a pre-flight check by its pilot and may not be flown unless it is serviceable. (S10 Chapter 4, 4.19.3)

1.10.4 FLIGHT LIMITATIONS

Each aircraft shall be flown within the limitations of its Certificate of Airworthiness or Permit to Fly. Any manoeuvre hazardous to other competitors or the public shall be avoided. Unauthorised aerobatics are prohibited. (S10 Chapter 4, 4.19.2)

1.10.5 DAMAGE TO A COMPETING AIRCRAFT

Any damage shall be reported to the organisers without delay and the aircraft may then be repaired. Any replacement parts must be replaced by an identical part, except that major parts such as a wing for a paraglider controlled aircraft may be replaced by a similar model or one of lesser performance.

Note: Change of major parts may incur a penalty. (S10 Chapter 4, 4.19.4)

An aircraft may be replaced by permission of the Director if damage has resulted through no fault of the pilot. Replacement may be only by an identical make or model or by an aircraft of similar or lower performance and eligible to fly in the same class. (S10 Chapter 4, 4.19.5)

1.10.6 TEST AND OTHER FLYING

No competitor may take-off on a competition day from the contest site without the permission of the Director. Permission may be given for a test flight but if the task for that class has started, the pilot must land and make a competition take-off on the task. Practising prior to a task is not permitted. (S10 Chapter 4, 4.21)

1.10.7 FITNESS

A pilot may not fly unless fit. Any injury, drugs or medication taken, which might affect the pilot's performance in the air, must be reported to the Director before flying.

Every nation has the full responsibility to fight against doping. Anti doping control may be undertaken on any competitor at any time.

The decision to impose anti doping controls may be taken by the FAI, the organiser or the organiser's national authority.

All relevant information can be found on the FAI Web site: www.fai.org/medical

1.10.8 AIRFIELD DISCIPLINE

Marshalling signals and circuit and landing patterns will be given at briefing and must be complied with. Non compliance will be penalised.

1.10.9 COLLISION AVOIDANCE

A proper look-out must be kept at all times. An aircraft joining another in a thermal shall circle in the same direction as that established by the first regardless of height separation.

A competitor involved in collision in the air must not continue the flight if the structural integrity of the aircraft is in doubt. (S10 Chapter 4, 4.20.5)

1.10.10 CLOUD FLYING

Cloud flying is prohibited and aircraft may not carry gyro instruments or other equipment permitting flight without visual reference to the ground. (S10 Chapter 4, 4.20.6)

1.10.11 ELECTRONIC APPARATUS:

Radios, VOR, GPS and similar electronic navigation aids are prohibited. The normal penalty is disqualification from the competition. CIMA approved GNSS flight recorders and ELT's without voice transmission capability are permitted. Mobile phones may be carried in a pre-declared sealed container for use solely in the event of an emergency. The director must be immediately informed if the seal is broken. (S10 Chapter 4, 4.22.3)

Before each task the Director will ask marshals to check for infringements. The normal penalty is disqualification from the competition.

1.10.12 EXTERNAL AID TO COMPETITORS

Any help in navigation or thermal location by non-competing aircraft, including a competing aircraft not carrying out the task of their own class, is prohibited. This is to ensure as far as possible that the competition is between individual competitors neither helped nor controlled by external aids. (S10 Chapter 4, 4.22.1/2)

1.11 CHAMPIONSHIP TASKS

1.11.1 GENERAL

To count as a valid championship task all competitors in the class concerned will be given the opportunity to have at least one contest flight with time to carry out the task.

A task for each class may be different and a task may be set for all classes. (S10 Chapter 4, 4.24.4)

A competitor will generally be allowed only one take-off for each task and the task may be flown once only. However, in the event of a mechanical or GNSS flight recorder failure occurring within 5 minutes of take-off, a further start may be made without penalty. Exceptions and penalties will be specified in the Task Description. (S10 Chapter 4,4.25.2)

Precision tasks and limited fuel tasks may be combined with other tasks or set separately.

1.11.2 TASK PERIOD

Times for take-off, closing of take-off windows, turn points and last landing will be displayed in writing. If the start is delayed, given times will be correspondingly delayed unless specifically briefed to the contrary.

1.11.3 TASK SUSPENSION OR CANCELLATION

The Director may suspend flying after take-offs have started, if to continue is dangerous. If the period of suspension is sufficiently long to give an unfair advantage to any competitor, the task shall be cancelled.

Once all competitors in a class have taken off or had the opportunity to do so, the task will not be cancelled except for reasons of force majeure. (S10 Chapter 4, 4.25.3)

1.11.4 TYPES OF TASKS

Only tasks approved by CIMA, listed in S10 Annex 4 or in the Task Catalogue will be used.

A catalogue of tasks (and their scoring systems) to be implemented during the championship will be issued and attached to these local regulations.

1.11.5 FLYING THE TASKS

Any part of a competition task may be flown either :

- a. along a set course or track specified at the briefing,
- b. along an in flight decided course or track selected by the pilot,
- c. according to a local pattern specified at the briefing.

The resulting complete task can also be the combination of the above.

Order of take off may be :

- a scheduled take off order, balloted by the Director,
- within an open window,
- by current or reverse classification order

The actual scheduled take off order is annexed to the relevant Task Description.

If a touch and go is required in order to separate parts of a task, details will be given in the Task Description and at the briefing.

1.11.6 OUTLANDINGS

Outlandings will normally be scored zero, unless specifically stated at the briefing.

If a pilot lands away from the goal field or from base, he must inform the organisers by telephone, with the minimum of delay and at the latest by the closing time of the task. He may break the fuel tank seal and fly home or return by road.

Evidence of the landing place must be obtained from photographs and the name and addresses of a witness other than the pilot's national team.

On return to base the pilot must go immediately to Control with his report and task evidence. Failure to follow this procedure without good reason may result in no score for the task, charges for any rescue services called out, or disqualification. (S10 Chapter 4, 4.27.1)

1.11.7 FLIGHT BOUNDARIES

Flights terminating beyond the boundaries of the organiser's country shall score only to the point where a straight line between the start point or last turn point and the landing place last cuts the boundary, unless permission is given at briefing to cross such boundaries.(S10 Chapter 4, 4.28.1)

1.11.8 EMERGENCIES

A competitor landing to help an injured pilot should not, at the discretion of the Director, be disadvantaged by this action.

1.12 CONTROL OF TASK FLIGHTS.

1.12.1 TIMING

All times are given, taken and calculated in local time to the nearest second.

1.12.2 FUELLING

Fuel will be measured by weight or volume but will be consistent for any given refuelling session. Measured fuel quantities include oil where it is mixed with petrol.

Refuelling will be in the order and in accordance with the instructions given at briefing. Failure of the aircraft to be present on time may result in penalty for the pilot.

1.12.3 ACCURACY

Landing accuracy may be verified by video cameras.

1.12.4 GATES, TURNPOINTS AND MARKERS

Gates are normally a straight line 250m wide perpendicular to the briefed track.

Gates may be:

- Known gates. Their position and height to be crossed will be briefed.
- Hidden gates. The height to be kept along the sections of the course where they are situated will be briefed.

Proof of passing a gate and its timing will be primarily by GNSS flight recorder evidence and secondarily by marshal's report.

Control points may be: A geographical point, a ground marker, a landing marker or a kicking stick.

Control points may be:

- Known control (turn) points. Their position and description will be briefed.
- Hidden control points. The track along which they will be found and their description will be briefed.

Proof of reaching a control point may be:

- by photography
- by the competitor recording the symbol and position on the declaration sheet
- by a Marshall's report.
- by flight recorder evidence

The precise requirements will be described in the Task Description.

1.13 GNSS FLIGHT RECORDERS

1.13.1 The status of GNSS flight recorder evidence relative to other forms of evidence is as follows:

- All aircraft must carry a FR which will be used as primary evidence, depending on the tasks, as indicated at the briefing or in the task sheet.
- In the event of a failure of the primary FR, a second FR, photographic evidence or marshal's report may be used as secondary evidence.
- In specific tasks, as briefed or written in the task sheets, no FR will be used.

- 1.13.2** Only CIMA approved FR's may be used and they must be operated in strict accordance with their approval documents. (S10 Annex 6)
- 1.13.3** The FR to be used by a competitor in this championship can be supplied by himself, his team or lent by the Organisation. The FR case and pouch must be clearly labelled with the pilot's name and competition number and, if possible, this information must be entered into the memory of the FR.
- 1.13.4** The pilot must make available to the Organisation, if required, a data transfer cable and a copy of the transfer software on 1,44Mb floppy disk.
- 1.13.5** Before the championship starts each FR must be presented together with its CIMA approval document to the organisation for inspection and recording of type and serial number. The pilot must be sure it fully complies with any requirements in the approval document e.g. that manufacturer's seals are intact and it is equipped with a data-port sealing device if it is required or it will be rejected by the organisation.
- 1.13.6** Once the championship has started the pilot must always use the same FR. In the event of a permanent failure, another FR may be used after it has been presented together with its CIMA approval document to the organisation for inspection and recording of type and serial number.
- 1.13.7** All FR's must be presented to the organisation for inspection immediately before the start of each task. If secondary evidence is presented then both sets must be clearly marked 1 and 2. Only one set of evidence will be used to verify the flight.
- 1.13.8** It is the pilot's responsibility to ensure that he is fully aware of the functions and capabilities of his FR e.g. how to operate the PEV marker button, that it has sufficient battery power and that the antenna is correctly positioned etc.
- 1.13.10** Where FR data is to be used for scoring, the organiser must have visited every location which could affect the scoring and got a GNSS fix of that position (e.g. turn points, hidden gates etc.). It is not acceptable to extract positions from a map in any circumstances. Points that will not require FR evidence for scoring (e.g. because a marshal is taken times at a hidden gate) must be specifically briefed.
- 1.13.11** The scoring zone for FR's is independent of any other zone or sector (e.g. photo sector). The scoring zone will be a cylinder of 250 m radius and of infinite height. To score a fix point must either be within this circle, or the line connecting two sequential track fixes must pass through the circle. Additionally the task may require one of these fixes to be associated with a pilot event mark (PEV).
- 1.13.12** A start line, IP or gate time is taken from the fix immediately before the line is crossed. A finish line or FP time is taken from the fix immediately after the line is crossed.

1.14 SCORING

1.14.1 GENERAL

The overall results will be computed from the sum of the task scores of each competitor, the winner having the highest total score in the class. (S10 Chapter 4, 4.29.1)

A score given to a competitor shall be expressed to the nearest whole number, 0.5 being rounded up. (S10 Chapter 4, 4.29.4)

All distances not obtained from GNSS shall be calculated from the official map. All times are taken to hours, minutes and seconds. (S10 Chapter 4, 4.29.4)

A pilot who did not fly scores zero and will be marked DNF on the score sheet. A pilot who is disqualified will be marked DSQ (S10 Chapter 4, 4.29.5)

Deduction of penalty points shall be made after scoring for that task is completed. (S10 Chapter 4, 4.29.6)

If a pilot's score is, for any reason, negative including penalties, his score for the task will be taken as zero. Negative scores will not be carried forward. (S10 Chapter 4, 4.29.7)

The following standard symbols will be used for scoring:

V = Speed, D = Distance, T = Time

The scoring system to be used shall be approved by the FAI Microlight Commission and attached to this Local Regulations.

Score sheets shall contain the Task number and date when it took place, the date and time when the score sheet was issued, class(es) involved and Competitors number, name, country and score.

Score sheets shall be marked PROVISIONAL and OFFICIAL, or if a protest is involved, FINAL. (S10 Chapter 4, 4.29.1)

1.14.2 PENALTIES

In general, any infringement of any flying, safety or task regulation will result in penalty. Any score penalties will be indicated at the briefings and in the score sheets.

1.15 DISQUALIFICATION

Actions which will normally result in disqualification:

- a. Bringing the event, its organisers, the FAI or the sporting code into disrepute.
The use of hostile 'tactical protests' falls into this category.
- b. The use of banned substances.
- c. Unauthorised interference with an aircraft in a Secure Area.
- d. Flight outside the specified flight envelope of the aircraft or dangerous flying.
- e. Flight or attempted flight with prohibited equipment.
- f. Unauthorised assistance during a task.
- g. Interference with the firmware or software of a CIMA approved GNSS flight recorder.
- h. Repeated or very serious infringement of security and safety rules.
- i. Repeated infringement of flying restrictions.

Part 2, applies to classes AL1, AL2, WL1 and WL2 (Classic classes)

2.1 GENERAL REMARKS

2.1.1 RANGE

All aircraft will be expected to have a still air range of 250 km.

2.1.2 TAKE-OFF AND LANDING

Unless it is stated differently in the task description, all competition take-offs and landings must be completed within a deck 102m x 25m. The penalty for failing to take off or land entirely within the deck will be briefed and indicated in the task sheet.

2.1.3 CONTROL OF CLASS CONFORMITY

All aircraft may be weighed before the event or at any time in the championships. The take-off weight is the weight of the aircraft ready to fly including pilot(s), fuel, and any supplementary equipment. The take-off weight must not exceed the FAI definition of a microlight for the class in which it is flown.

2.1.4 CONTEST NUMBERS

The numbers or letters supplied by the organisers shall be displayed on a suitable space on the underside of the wing with their top towards the leading edge. If the numbers supplied by the organisers are of a colour not contrasting to the wing colour, the competitor is responsible for creating a contrasting background. Identification may also be required on a vertical part of each microlight (e.g. fin, cockpit side or pilot's helmet).

2.1.5 PROTECTIVE EQUIPMENT

A protective helmet must be worn on all flights unless this restricts vision from within an enclosed cockpit canopy with supine seating. An emergency parachute system is highly recommended (S10 Chapter 4, 4.20.1) and it's weight will be excluded from the MTOW.

2.2 FLIGHT CONTROL

2.2.1 FUEL

Prior to fuelling for economy tasks competitors must be able to demonstrate that their aircraft tanks are empty and that the engine cannot run in either the ground or in-flight attitude of the microlight. The organiser's officials can establish a method to achieve this goal.

2.2.2 DISTANCE MEASUREMENTS

Distances will be obtained, for all competitors, from GNSS flight recorders or measured on the same official map. Measurements will be made to the nearest 0,5 kilometre.

2.3 SCORING

2.3.1 CROSS COUNTRY TASKS

The maximum score may be up to 1000 points per task and is calculated as follows:

$$P = Q/Q_{\max} \times 1000$$

where: Q = competitor absolute score, Qmax = best absolute score for the task

P = competitor relative score

2.3.2 PRECISION TASKS

Maximum score: 250 points per task or 2 x 250 points for the combined precision task.

2.3.3 The number of tasks flown in each class during the Championships must as far as possible be very close to: A:B:C = 0.5 : 0.25 : 0.25

2.3.4 The winner of each class shall be the pilot or crew gaining the highest total points in the class.(Chapter 4, 4.5.6)

2.3.5 The team prize shall be computed from the sum of the scores of the top three pilots from each country in each class in each task. The task score for which a pilot was disqualified shall not count for team scoring. Other valid tasks flown by this pilot are not affected.(Chapter 4, 4.5.7)

Part 3, applies to Classes PF1, PL1 and PL2 (New Classes)

3.1 GENERAL REMARKS

3.1.1 RANGE

All aircraft will be expected to have a still air range of 100 km.

3.1.2 THE SECURE AREA

Is a clearly marked area where aircraft must be placed from time to time as instructed by the director. Once in the Secure Area and without the express permission of the director, no aircraft may be touched for any reason other than to remove it from the Secure Area.

Competitors who do not respect the rules of the Secure Area may be liable to penalty.

3.1.3 A "CLEAN" TAKE OFF

Is defined as a take off attempt in which the canopy does not touch the ground between the moment it first leaves the ground and the moment ten seconds after the entire aircraft including the pilot is airborne.

3.1.4 THE LANDING DECK

- A landing deck is a clearly marked area 100m x 100m.
- A landing deck will have a windsock within 100m of its boundary.
- There will be no significant obstacles within 200m of the boundary of a landing deck.
- Unless otherwise briefed, penalties will be awarded to Pilots or any part of their aircraft touching the ground anywhere outside the landing deck during a task.

3.1.5 CONTEST NUMBERS

PF's and PL's shall carry the number centrally on the underside of the paraglider, top towards the leading edge. If the numbers supplied by the organisers are of a colour not contrasting to the wing colour, the competitor is responsible for creating a contrasting background. Identification may also be required on a vertical part of each microlight (e.g. pilot's helmet, trike).

3.1.6 EMERGENCY EQUIPMENT

An emergency parachute is not to be considered as a part of the structural entity of a PF or PL and may be removed or added during a competition.

3.1.7 PROTECTIVE EQUIPMENT

A protective helmet must be worn whenever the pilot is strapped into the harness of a PF or seated on a PL. An emergency parachute system is highly recommended.

3.1.8 PROHIBITED EQUIPMENT

In addition to those items detailed in Part 1 of the local regulations: Disposable ballast & binoculars.

3.2 FLIGHT CONTROL

3.2.1 TIMINGS

Normally, take-off times are taken at the moment a pilot's feet leave the ground.

Normally, landing times are taken at the moment a pilot's feet or any other part of the pilot or aircraft touches the ground.

Timings may also be taken when the pilot kicks a stick or flies overhead an observer as briefed for the task in question.

A task is deemed to have started the moment the first pilot to take-off is ready to take-off and ends the moment the last pilot has landed and has exited the landing deck.

In the case of a take-off time window, the precise time of take-off is entirely at the discretion of the pilot but should be within the overall time window. In the case where a particular take-off time is given, the clock will start running at that moment and the pilot may subsequently take-off at any time.

3.2.2 DISTANCE MEASUREMENT

Distances will be obtained, for all competitors, from GNSS flight recorders or measured on the same official map. Measurements will be made to the nearest 0,5 km.

3.2.3 FUEL MEASUREMENT

Fuel will be measured by weight or volume but will be consistent for any given refuelling session. Refuelling will be in the order and in accordance with the instructions given at briefing. Failure of the aircraft to be present on time may result in penalty for the pilot.

Competitors must be able to demonstrate that their entire fuel system is empty.

3.2.4 FLIGHT ACCURACY MEASUREMENT

Ground markers

- Certain ground markers may be designated as "Landing markers", where a bonus score may be available in the task for landing on the marker. Landing markers are min. 4m x 4m.

Kicking sticks

- Some tasks may involve the use of "Kicking sticks". A valid strike on a stick is one where the pilot or any part of the aircraft has been clearly observed to touch it.
- The stick should be approx. 2m in height, visible from a range of at least 250 meters, and of a construction such that it is unlikely to enter the aircraft propeller once struck. (Standard ski slalom posts are recommended).
- One or more sticks may be used in a task for the purposes of separating elements of that task (e.g. to take a time) and a bonus score may be available for successfully kicking a sequence of sticks in a given order and/or time.

3.3 FLYING THE TASKS

3.3.1 PROPORTIONS

The proportion of the tasks accumulated during the Championships is approximately
 $A : B : C = 1/3 : 1/3 : 1/3$

3.3.2 ASSISTANTS

Help from assistants is positively encouraged until a competitor enters the deck to start a task. From that moment onwards, all external assistance is forbidden except from marshals or those people expressly appointed by the Director, until the moment the competitor leaves the deck having finished a task, or otherwise lands according to the outlanding rules.

3.3.3 TAKE-OFF

A PF must be foot launched for all tasks.

No pilot may take-off without permission from the Director or a Marshal.

Open window or given order of take off may be applied to tasks.

All take-offs, unless otherwise briefed, must be effected entirely within the landing deck, except for emergency provisions given at briefing. Failure to comply will result in a penalty of 20% of the pilot's score.

Before departure a pilot and/or his aircraft may be inspected at any time for contravention of any regulations. It is the duty of competitors to assist marshals as much as possible in assisting and expediting any inspection.

Except in specified tasks, an aborted take-off does not in principle attract any penalty; however the pilot must comply with any instruction from the marshals to expedite a re-launch or the pilot risks being relegated to the end of the queue.

In the case where the take-off order is given:

- No more than six pilots are permitted on a take off deck at any one time.
- The first 6 pilots must be ready to takeoff at the start of the task.
- Every pilot must take off before the sixth pilot in order after him has taken off or a 20% penalty will apply.
- If a marshal considers a pilot to be causing unreasonable delay (has been on the deck more than 20 minutes with the opportunity to take off), a 20% penalty will apply.

In the case where a particular take-off time is given, the clock will start running at that moment and the pilot may subsequently take-off at any time.

3.3.4 FLIGHT LIMITATIONS

Aerobatics and manoeuvres such as stalls, B-line stalls, deep stalls and spins are prohibited. 'Big ears' is accepted.

3.3.5 LANDING

All landings, unless otherwise briefed, must be effected entirely within the landing deck, except for emergency provisions given at briefing. Failure to comply will result in a penalty of 20% of the pilot's score. The pilot may be liable to penalty if he or any part of his aircraft touches the ground outside the deck before he has removed his harness.

- Upon landing, pilots must immediately remove their aircrafts from the deck.
- Landings outside the landing deck but within the airfield boundary will attract a 20% penalty.
- Pilots 'abandoning' their aircrafts on the landing deck will be liable to penalty.

In tasks where pilots are asked to make a precision landing or to land on a marker, the objective is for the pilot to make a good landing on his own two feet without falling over. "Falling over as a result of the landing" will be interpreted as:

- GOOD: If the pilot falls to ONE knee - landing score as achieved.
- BAD: If the pilot falls to TWO knees OR if any part of the power unit touches the ground during the landing process - zero landing score.

In tasks where the pilot is asked to switch off his engine above specific heights, the heights will be determined by:

- 500 Ft: "The engine must be stopped & propeller stationary for a minimum period of 60 seconds before any part of the aircraft or the pilot touches the ground."
- 15 ft: "The engine must be stopped & propeller stationary for a minimum period of 2 seconds before any part of the aircraft or the pilot touches the ground."

Obstruction at landing markers: If a pilot or any part of his aircraft obstructs the attempted landing or the takeoff of another competitor at a landing marker, then a 20% penalty will apply. However, any pilot who scores more than zero for his landing at a landing marker has exclusive use of the area immediately surrounding the marker for a maximum period of one minute in which to clear his aircraft from the area.

3.3.6 EMERGENCIES

All pilots must fold up their canopies immediately upon landing. A canopy that has not been folded within three minutes indicates the pilot is in need of help. Any pilot who observes such a situation is obliged to render assistance and contact the organisation as soon as possible.

3.4 SCORING

The maximum score may be up to 1000 points per task and is generally calculated as follows:

$$P = Q/Q_{\max} \times 1000$$

Where: Q = pilot absolute score, Q max = best absolute score for the task

$$P = \text{Relative score}$$

but, depending on the task, absolute scores for pilots' performance may also be awarded either in combination with the above or exclusively. Where a combination is used the total available absolute score shall not be more than 50% of the total available score.

e.g.: $P = Q/Q_{\max} \times 750 + y$ (where the maximum value of y would be 250)

OR $P = y$ (where the maximum value of y could be 1000)

In all cases: P = Total score, Q = pilot score, Q max = best score for an element of the task, y = an absolute score

The winner of the class shall be the pilot gaining the highest total points in the class.

ENTRY FEES

	Fee	Number	Total
Pilot	400		
Nav	400		
Assistant	250		
Team Leader	250		
Technical Official	250		
	250		
Total amount			
Discount (if payment is received till 30/04/04)	35		
Discount (if payment is received till 31/05/04)	20		
Amount to pay			

This amount is / will be paid by *(date)* _____ in the form of bank transfer

We declare that the above information is true.

Signed : Position in NAC.....

Print Name Date

INSURANCE:

Each competing aircraft shall be covered for public liability risk to the minimum value of 75.000 euros, valid in Portugal.

Personal accident cover, valid in Portugal, is also obligatory.

Proof of cover must be provided at Registration and before the aircraft is flown.

PUBLICITY:

A passport type photograph and a short biographical note for each pilot and the team leader should be provided either at the pre-registration site, with this Entry Form or at latest at Registration.
