Task 1 (slalom) yesterday is abandoned. We will do this task at a later stage in the championships.

After some organizational difficulties we are now ready to continue the championships tomorrow morning.

There is no task tonight so the pilot briefing will be at the pool, near the HQ van at 18:30 for TEAM LEADERS + 1 only, we have too many people for all pilots to be present.

Task 1 is unlimited fuel; navigation and precision, window open 07:00 tomorrow morning. The task 1 pilot briefs for all pilots will be placed in the boxes at 17:00

All pilots please note that the official clock and noticeboard will be always on the HQ van. The HQ van will always be stationed at the flying site unless it is en-route to that site or is at the pool. Unless briefed otherwise it will always be at the pool between 12:30 and 18:00.
