## PURE NAVIGATION

### Objective

To fly to the greatest number of turnpoints within the time window and return to the deck.

### Special rules

Pilots must declare the number of turnpoints they will pass in advance and hand their declaration to a marshal before takeoff.

Each point may only be visited once.

Please hand your declaration sheet to a marshal as soon as you land back in the deck.

### Scoring

$$\text{Pilot score} = 1000 \times \frac{\text{NBp}}{\text{NBmax}}$$

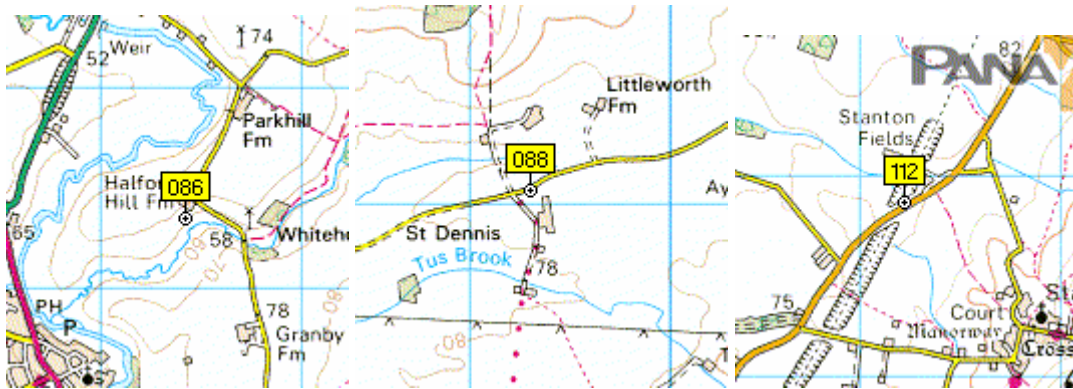

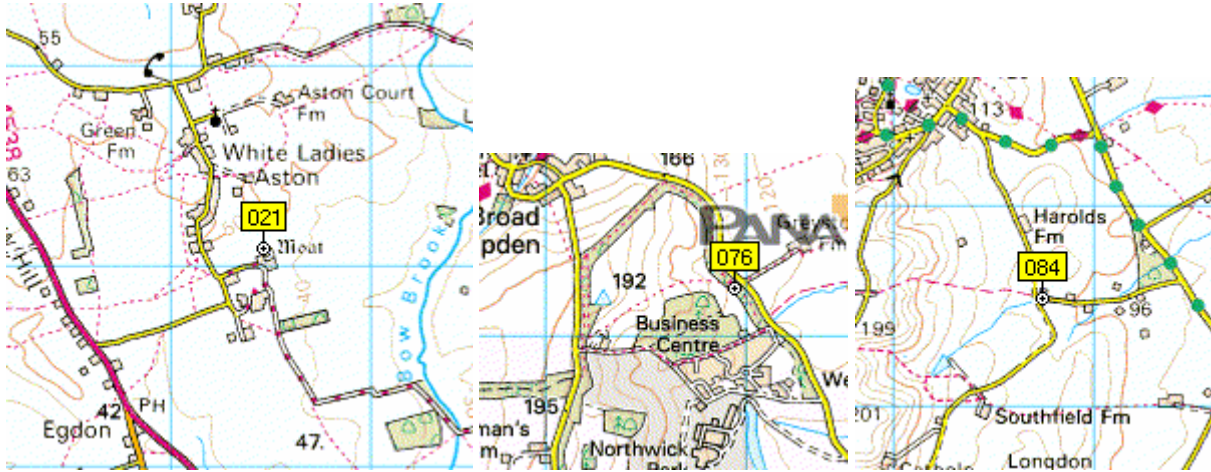

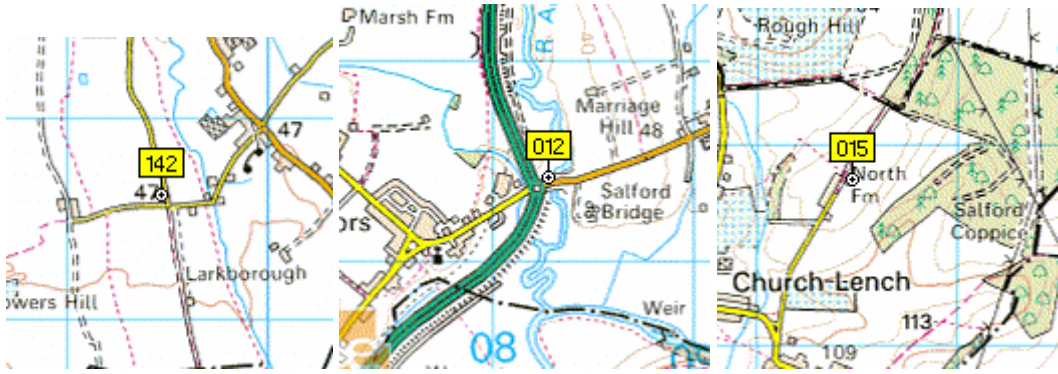

Where,

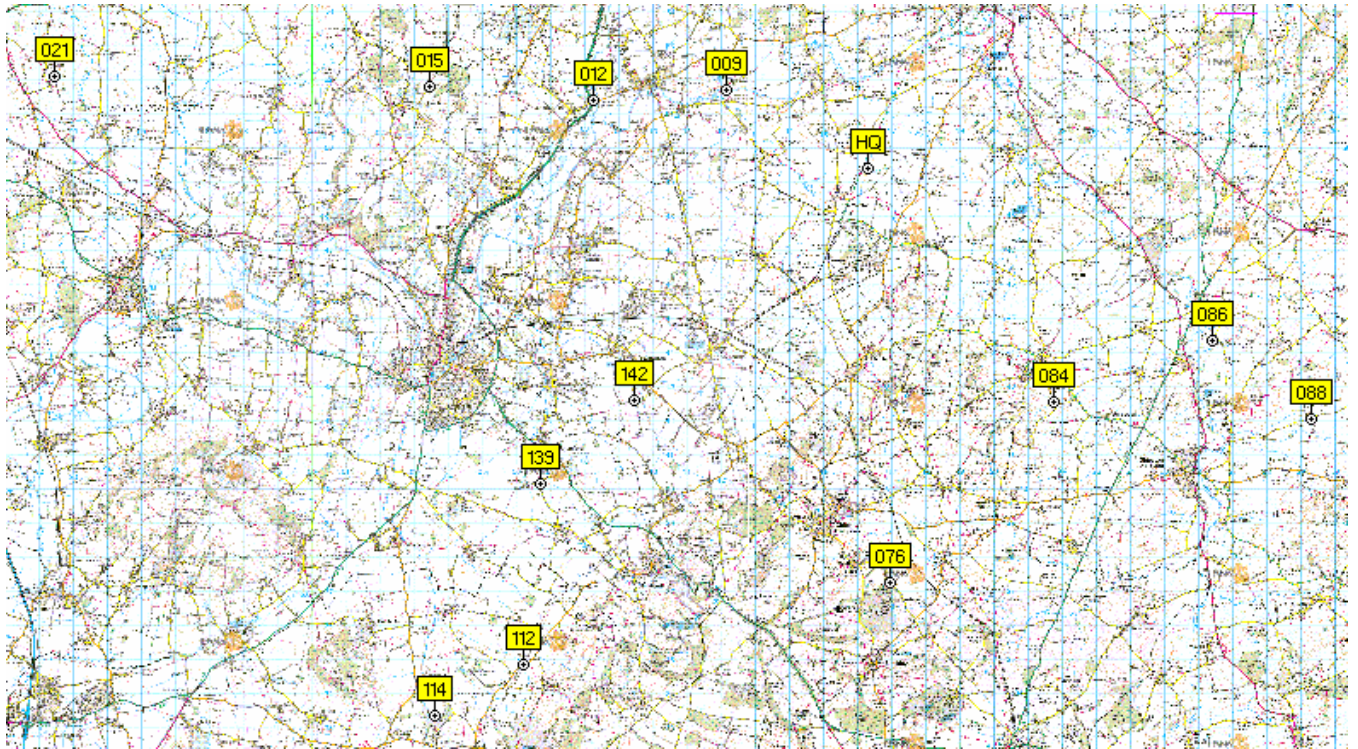

*NBp = (The number turn points a pilot collects in the task) minus (the difference between pilot declared number of turnpoints and actual number of turnpoints passed)*

*NBmax = The maximum number of turn points collected in the task*
