

# 2010 Report

## CIMA WAG Working Group

### Members

Tormod Veiby, Vladimir Silhan, Jacek Kibinski, Paul Dewhurst, Wolfgang Lintl

### Background

The purpose of the CIMA WAG microlights subcommittee is to:

- Create rules for the WAG microlight competition
- Organize, run and score a qualifying system
- Ensure that planning for competition at WAG is progressing according to plan.
- Ensure competition at WAG is conducted according to plan.

### Work the WG has done

Just a little bit. We shared a few ideas about new attractiv tasks, but so far with no results. We discontinue because the awarded hosting City Odense in Denmark canceld there bid. There was no time pressure on our working group because the biding process is on ist way for 2013.

### Moving forewards

The WG will use the CIMA wiki to continue there work, collecting some new ideas presented during the CIMA GC.

Wolfgang Lintl
