

Report CIMA February 2024

This year 2023 we celebrated the 5th World Paramotor Slalom Championship in Bornos Cadiz.

3 pilots have participated in the 6th World Paramotor Slalom Championship in Qatar with good classifications. 2 in PF1 and 1 in PL1

We are currently low in participation in competitions so we have not had the possibility to run any of our national championships. Though we did start a new format of championship approved in Spain which is Precision landing for paramotors championship, proposed by Italian Delegate last year, and we had nearly 30 pilots participating in both competitions.

We have started with 2 training camps for new potential members for future international events.

We are currently only 4 pilots who are participating in the next World championship in UK 1 PF1 and 3 PL1.

Hopefully we will be able to organize a national championship this 2024 possibly in September plus the precision championships aswell

There have been 3 world record attempts:

- Altitude PF2 Pilot Ramon Morillas
- Time to climb 6000 m PF2 Ramon Morillas
- Distance in closed circuit without landing PL1 Martin Carpio
