- Marugán airfield was built a few years ago. It is specifically designed for microlights, and it is a impressive installation with all the facilities that a paramotor pilot needs:
  - Workshop, flying school, 95 fuel station, hangars, Bar-restaurant, on-site accommodation in lofts integrated in the hangars, swimming pool.
- Strips:
  - 12-30. 600 meters. Tarmac
  - 17-35. 800 meters. Gravel
  - Elevation: 938 m – 3.080 ft
- Flying zone: flat and safe area to fly, with plenty of alternative landing fields. Nice landscape 15 km away from the Sistema Central mountain range.
- Communications: 30 km from Segovia, 95 km from Madrid, 500 km from the French border.
